Wide Bandsaws

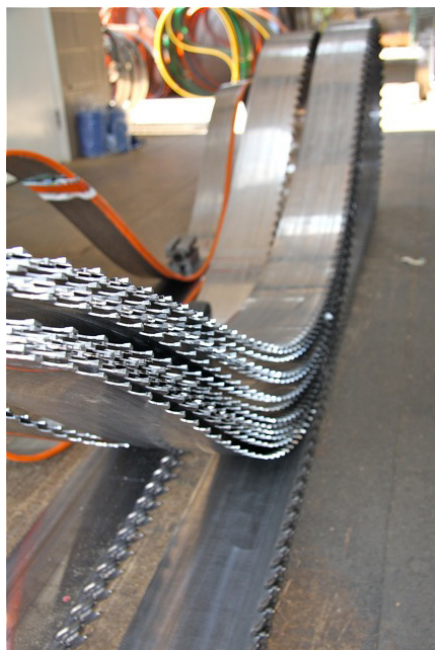

We specialise in the manufacture and servicing of Swaged and Stellite Tipped wide bandsaws.

We can offer both Swedish and European steel in a range from 60mm to 360mm (2 ½ to 14 inches) wide with all the blades tensioned to your specification, ready to run. The cutting teeth can be Swaged and Shaped or Stellite Tipped for a more durable and longer lasting cutting edge.

Sharpening Services from EPS

We offer a sharpening service for all Peterson and Lucas circular saws as well as Woodmizer type bandsaw blades with a weekly collection and delivery service from our own fleet of vehicles throughout the South West of England, South Wales and Scotland. We can also arrange collection and delivery throughout the UK if required.

All blades are fully cleaned and checked for cracks and other damage. We then use the latest oil cooled sharpening equipment, specifically designed for sprung set sawmill blades up to 1 1/2" (38mm) in width with the standard 10 degree hook angle an 30 degree rake tooth profile most commonly used for mobile saw milling.

We can sharpen blades for all Lumbermate models, Wood-Mizer LT10, 15, 20, 25, 30, 40, SHR and SHRF models and many others (depending on blade type and length). We will clean, set and sharpen a blade for £11.02 + VAT

If you are interested in this service please call us directly arrange a collection
