

Production Operator - Gerrymet**Location:** Brownhills**Hours:** 40 hours/week, Monday to Friday (no shifts or regular weekends)

Gerrymet is looking to add a reliable Production Operator to our team. If you're interested in hands-on manufacturing and keen to develop new skills, this could be the perfect opportunity for you.

No previous experience? No problem. We provide full training to get you confident with servicing and manufacturing bandsaw blades using CNC grinding machines. You'll also need to be comfortable with some manual lifting and reading measuring instruments.

A full driving licence is essential as you will be covering van driving duties during holidays and sickness.

We're after an adaptable, flexible team player who takes pride in their work and can chip in wherever needed within the department. An eye for detail is a real bonus.

What you'll be doing:

- Servicing and sharpening bandsaw blades
- Manufacturing blades on CNC grinding machines
- Assisting with other departmental duties as required
- Covering van driving during holidays and sickness

What we offer:

- 28 days annual leave including bank holidays, increasing after 2 years
- Pension scheme
- £50,000 death in service insurance
- Free parking on site
- Free tea and coffee (because who doesn't love a good cuppa?)

If you're ready to join a friendly team and grow your skills with a solid company, send your CV to Sharon at **sharonwood@gerrymet.com**
